

W&D

Worth & Douglas

Individual Craftsmanship

All rings are carefully sized to the leading edge.

Most styles featured in this catalogue are available in:

9ct Yellow Gold, White Gold or Rose Gold

10ct Yellow Gold

14ct Yellow Gold, White Gold or Rose Gold

18ct Yellow Gold, White Gold or Rose Gold

22ct Yellow Gold

Selected styles of jewellery are available in Platinum, Palladium, Titanium and Zirconium.

All wedding ring styles produced in medium weight and above, in a single metal, are available in "Comfort Curve"[™].

Please note that Comfort Curve[™] is not available with some two-tone and tri-gold rings.

Worth & Douglas' skilled craftsmen are able to manufacture wedding rings to your special requirements, please contact us with your individual requests.

Free Symbolic Engraving

Ensure your words of love last forever with an engraved wedding ring. Share your special message with us and we will engrave it for you.

Engrave the inside of your wedding rings with up to 30 letters, numbers or symbols (including spaces) on a single line, for free.

You may choose to have your message engraved using all uppercase letters, all lowercase letters or with initial capital letters. The Standard Block (1) font in all uppercase will be used, unless otherwise specified.

You can choose from our selection of fonts and symbols below:

1	<i>TOGETHER FOREVER</i>
2	Together Forever
3	<i>Together Forever</i>
4	<i>Together Forever</i>
5	TOGETHER FOREVER

Platinum & Palladium

PURE · NATURAL · WHITER

Many styles featured in this catalogue are available in Platinum or Palladium.

These two metals share many of the same qualities:

- Our Palladium & Platinum jewellery is 95% pure*
- Do not require rhodium plating as they are a naturally bright white
- Will not tarnish in normal conditions
- Is hypo-allergenic
- Very hard wearing
- Can be resized with Palladium or Platinum solder

* Palladium (other 5% made up of gallium and copper)
Platinum (other 5% made up of ruthenium)

Comfort Curve™

Feel The Difference

Feel the difference the Comfort Curve™ will make to the pleasure of wearing your wedding ring. The entire inner surface of the W&D Comfort Curve™ Wedding Band is contoured to allow less of the ring to touch the skin. The ring will slide easily onto the finger to provide a secure and extremely comfortable fit. If the "WD" mark is inside the ring you are assured of the highest quality.

Zirconium Bands

Zirconium

- Zirconium is naturally a hard, lustrous, silvery coloured metal which is produced from the mineral Zircon ($ZrSiO_4$).
- Zircon is mined primarily in Australia and South Africa, with smaller deposits found in Brazil, India, Russia, and the United States, amongst other countries.
- Zirconium is extremely corrosion resistant due to the formation of a stable oxide film and is unaffected by most acids and alkalis.
- Extreme heat causes oxidisation and the ring turns black. Machine engraving reveals the natural silvery colour underneath.
- With normal daily wear black zirconium rings are extremely durable. However, as with most metals, they are not scratch resistant.
- Zirconium is completely hypoallergenic and will not tarnish or react to body chemistry.
- Zirconium is very strong and long lasting, yet light in weight.
- Zirconium is harder than platinum, and our heating process makes it even tougher.
- Zirconium will not shatter like Tungsten.
- Our Zirconium rings are available in 1.5 – 12mm widths, and in a wide range of profiles.
- Our Zirconium rings are available with a selection of our decorative cuts.
- Our free machine engraving is available on the inside, i.e. names, wedding dates or a special message, but hand engraving is not available.
- Our Zirconium rings can be stretched up one size, but cannot be soldered by conventional means. (Bi-tone Zirconium rings cannot be sized).
- Zirconium rings can be cut off the finger with saw blades.

Titanium Bands

- 3 times stronger but 45% lighter than steel.
- Discovered in 1791 and named after the Titans of Greek Mythology.
- Used in the aerospace industry for its ability to withstand extremes of temperature.
- Retains its form and style.
- Will not tarnish in normal conditions.
- Completely hypoallergenic.
